Trusted partners for long-term efficiency and viable solutions

WHY CHOOSE THE AIRE-O₂® ASPIRATOR?

- Consistent performance in high chloride, corrosive frac water environments
- Simple installation
- Minimal maintenance accessible at the surface
- Reduced fouling
- No splashing or aerosols

Improved frac water remediation and better, safer workplace air quality

FEATURES

- Wide dispersion, fine bubble aeration (≤ 2 mm in diameter)
- Stainless steel housing, structural frames, and lower shaft and prop
- Zero VETC and VOC emissions
